

Environmental Policy

Polidano Brothers Ltd. is one of the mainstays of the Maltese economy. Formed just under 30 years ago, the Company has shaped the construction industry in Malta, establishing itself as the largest private construction business on the islands. The business also incorporates the manufacture of products that complement the building industry.

Polidano Brothers Limited is committed to protecting the environment and undertakes to:

-  Operate and implement our Environmental Management System at all times, using ISO14001:2015 (EN) disciplines.
-  Prevent environmental pollution in all its forms, comply with relevant legislation and other moral and legal obligations.
-  Seek and apply continual improvement through measurement against policy, evaluation, review, training and procedural change, where required.
-  Reduce risk to all stakeholders and minimise the environmental impact of any operations.
-  Seek to follow industry best practice at all times.
-  Communicate this policy to our employees, sub-contractors, stakeholders and the public.

Responsibilities

-  The Directors, Management and Staff are all responsible for the Environmental Management System, seeking improvement by constant review, with suppliers and sub-contractors also being encouraged to co-operate.

Version dated: February 2020

Policy reviewed annually

Carmel Polidano - Director
